①

"chapter-10" Memory Interface

Timing Diagram

CHAPTER 11 & 12

Barney's Book

Page 410-411

2 math  
2 code  
4 figure

82C55 : Peripheral Device

PPI : Programmable Peripheral Interface

{ figure 11-25 }

82C55 → 3 ports

↳ Group : A & C : Group A  
B & C : Group B

$\overline{CS}$  → Chip Select

A0, A1 → Register Selection

|    |                  |
|----|------------------|
| 00 | Port A           |
| 01 | B                |
| 10 | C                |
| 11 | Command Register |

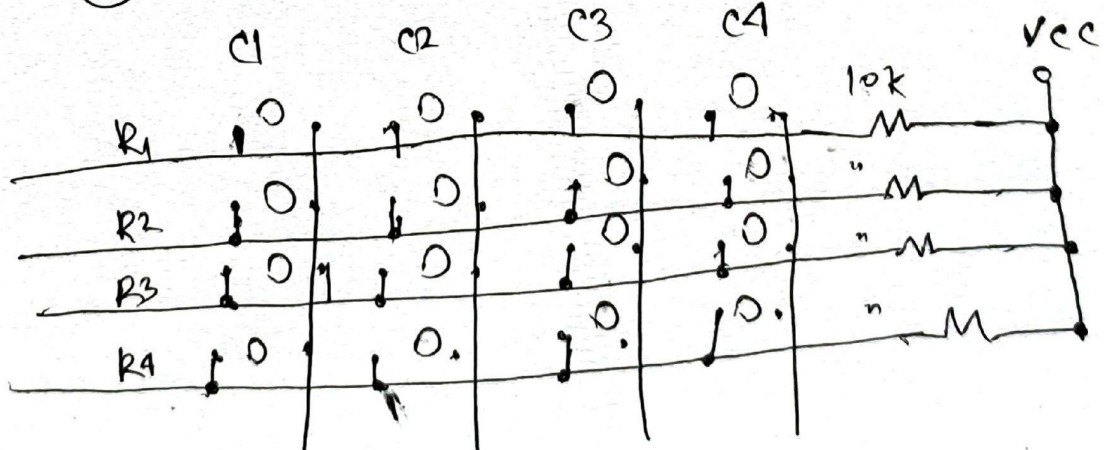

{ Text page = 410 page }

assignment

2x8  
8x2  
4x4 } SW Matrix

fig 11 → 25 16 switches

হিসেবে column '0'  
এই column-এ  
সব SW জ্বলবে

Shayab/2

## #chapter 9 : 8086/8088 HW Specification

page 21
